Citizens and Governing Board
Chino Valley Unified School District No. 51
650 East Center Street
Chino Valley, Arizona 86323

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Chino Valley Unified School District No. 51 (District) for the fiscal year ended June 30, 2015.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2015, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

The District is one of twenty five public school districts located in Yavapai County, Arizona. It provides a program of public education from preschool through grade twelve, with an estimated current enrollment of 2,198 students. The District has approximately 37 buildings, with an average age of between 20 and 25 years.

The District is located in north central Yavapai County, Arizona approximately 15 miles north of Prescott, the county seat. Its boundaries encompass 421 square miles. The town of Chino Valley and the community of Paulden are entirely within the District. Located within the District limits are the headwaters of the Verde River which supplies drinking water to residents of Maricopa and Yavapai Counties.

The District's complexion is rural in nature. Many residents of the District commute to Prescott and Prescott Valley for work. The economy of the area is based on governmental activity, manufacturing, agriculture, commerce, construction, and tourism/recreation. Governmental activity includes the Town of Chino Valley and a satellite office of the Prescott National Forest. Agriculture activities consist of cattle and horse ranching as well as commercial greenhouse operations. Commerce includes the continued construction of a major railroad yard, distribution system, and cement plant. Construction activities are slowly recovering after a significant decrease from 2008 to 2013. Tourism/recreation includes camping, hiking, fishing, and hunting. Major annual events include Territorial Days, Chino Grinder Bike Race, Hometown Chino Christmas, as well as music, fine arts, and arts and crafts events at various venues throughout Chino Valley. The following is a list of major initiatives achieved by the District during the fiscal year 2014-2015:

- The District continued with the planning phase of a \$300,000 Adjacent Ways project in cooperation with the Town of Chino Valley involving West Road 2 North and North Road 1 West at Del Rio Elementary School and Heritage Middle School. The goal of the project is to improve the flow of traffic in and around both schools during arrival and dismissal times.
- The District completed construction of a new Transportation Facility adjacent to Territorial Elementary School.
- The District hired a new principal for Heritage Middle School.

The following is a list of projects that the District is working on for future fiscal years:

- The District will reconfigure and expand its athletic fields at Chino Valley High School to ease the overuse of the existing fields.
- The District will expand Territorial School to grades K-2 and realign Del Rio School to grades three through five and Heritage Middle School to grades six through eight.
- The District will hire music, art, and physical education teachers for the elementary schools.
- The District will continue to purchase new propane powered buses to replace its aging buses.
- The District will hire a new superintendent to start July 1, 2016.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Furthermore, component units combined with the District for financial statement purposes and the District are not included in any other governmental entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore and athletic functions.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have overexpenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local Economy. The local economy within the District relies heavily on the construction trades and agriculture. Both of these areas have been impacted negatively as part of the downturn in the state and national economies. In addition, the local Town government has put in place a hiring freeze and has decreased the hours of all of its employees. There has been a net loss of residents within the District as many families have moved to more metropolitan areas of Arizona or to other states in search of employment.

An impediment to economic development is the lack of sanitary sewer infrastructure. There is limited access to the Town's sanitary sewer system along Highway 89, the Town's primary commercial corridor. With the Town's lack of capital resources, the expansion of the sewer system is at the expense of the commercial entities that choose to build within the Town. In November 2014, the Town attempted to pass a general override bond to pay for the purchase of existing infrastructure, and construction of new water and sewer infrastructure. The bond was voted down by the electorate.

One positive economic event was the opening in 2010 of the Drake Cement Plant within the District's boundaries. This will provide much needed jobs as well as provide the beginning of a large distribution hub involving railroad and commercial truck traffic.

Long-term Financial Planning. Declining enrollment had been a trend in the past, but increases in enrollment have taken place over the past two years. The District's estimate 40th day enrollment number for the 2015-2016 school-year is 2,448.

To address the past declining enrollment, there were cuts in classified staff positions and hours, certified teaching positions, and administrative positions. Seven years ago, the District moved to a four day school week in hopes of realizing savings in utility, transportation, and personnel costs. The District financed two energy savings projects worth \$1,800,000 in order to decrease utility expenses. The District outsourced its food service and maintenance, grounds, and custodial departments in an effort to save money. Finally, the District reorganized its two elementary schools and middle school in order to better utilize space and consolidate empty classrooms at one campus.

The long term financial health of the District with respect to its maintenance and operations (M&O) budget appears positive. The state legislature increased the average daily membership (ADM) M&O allocation by 1.6% for the 2015-2016 school year. With ADM stabilized, cuts to staff were not necessary for the 2015-2016 school year.

The District's District Additional Assistance (DAA) budget has declined severely over the past several years, as this fund has seen the majority of the cuts in state funding. Over the past few years, the District has utilized an alternative funding source for capital projects including emergency Arizona School Facilities Board (SFB) funding, American Recovery Reinvestment Act (ARRA) stimulus funds, and long term financing. The District authorized a \$9,900,000 bond election for November 2013 that was voted down by the electorate. Increases in M&O funding have allowed the District to remove all of the capital fund transfer from the M&O budget. In the future, the District will be investigating additional alternative sources of capital funding to meet the capital needs of the District.

Awards. The association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2014. This was the fourth consecutive year that the District received this prestigious award. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2014. In order to be awarded these certificates, the District published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year ended June 30, 2015 certificates.

Acknowledgments. The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Governing Board
Chino Valley Unified School District No. 51

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Chino Valley Unified School District No. 51 (District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Chino Valley Unified School District No. 51, as of June 30, 2015, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 1, the District implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, for the year ended June 30, 2015, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis budgetary comparison information, and net pension liability information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining and Individual Fund Financial Statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The Introductory Section and Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2015, on our consideration of Chino Valley Unified School District No. 51's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Chino Valley Unified School District No. 51's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
(Required Supplementary Information)

(This page intentionally left blank)

**CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2015**

As management of the Chino Valley Unified School District No. 51 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2015. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

FINANCIAL HIGHLIGHTS

- The District's total net position of governmental activities increased \$69,238, which represents an increase of one percent from the prior fiscal year.
- General revenues accounted for \$14.1 million in revenue, or 81 percent of all current fiscal year revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$3.2 million, or 19 percent of total current fiscal year revenues.
- The District had approximately \$17.2 million in expenses related to governmental activities, a decrease of two percent from the prior fiscal year, primarily due to a decrease in judgments rendered against the district.
- The General Fund had \$12.8 million in current fiscal year revenues, which primarily consisted of state aid and property taxes, and \$12.6 million in expenditures. The General Fund's fund balance increase from \$986,902 at the prior fiscal year end to \$1.4 million at the end of the current fiscal year was primarily a result of excess revenues over expenditures due to conservative spending.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

**CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2015**

OVERVIEW OF FINANCIAL STATEMENTS

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2015**

OVERVIEW OF FINANCIAL STATEMENTS

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. Due to their custodial nature, the fiduciary funds do not have a measurement focus.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances – budget and actual has been provided for the General Fund as required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$6.9 million at the current fiscal year end.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, and vehicles, furniture and equipment), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related outstanding debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted and may be used to meet the District's ongoing obligations to its citizens and creditors.

**CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2015**

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2015 and June 30, 2014.

	As of June 30, 2015	As of June 30, 2015
Current assets	\$ 3,683,036	\$ 4,540,798
Capital assets, net	19,903,967	20,343,918
Total assets	<u>23,587,003</u>	<u>24,884,716</u>
Deferred outflows	<u>1,429,823</u>	
Current and other liabilities	976,227	1,782,898
Long-term liabilities	14,550,913	2,459,954
Total liabilities	<u>15,527,140</u>	<u>4,242,852</u>
Deferred inflows	<u>2,627,050</u>	
Net position:		
Net investment in capital assets	18,197,308	18,644,918
Restricted	1,179,188	1,541,357
Unrestricted	(12,513,860)	455,589
Total net position	<u>\$ 6,862,636</u>	<u>\$ 20,641,864</u>

At the end of the current fiscal year, the District reported positive balances in two categories of net position. Unrestricted net position, which is normally used to meet the District's mission, reported a deficit of \$12.5 million. The deficit arose because of the implementation of GASB Statement No. 68, which required the District to record a liability for its proportionate share of the State's pension plan's unfunded liability. The District reported positive balances in all three categories of net position in the prior fiscal year.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following are significant current year transactions that had an impact on the Statement of Net Position.

- The addition of \$588,322 in capital assets through building improvements and purchases of vehicles, furniture and equipment.
- The addition of \$12.5 million in pension liabilities due to the implementation of new pension reporting standards.
- The net increase in accumulated depreciation of \$973,638 as a result of current year depreciation of assets, as well as the disposal of assets.
- The addition of a \$300,000 capital lease agreement to acquire a new transportation building.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2015**

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following is a significant current year transaction that had an impact on the change in net position.

- Increase of \$126,353 in operating grants and contributions primarily due to an increase in student enrollment.
- Decrease of \$94,474 in capital grants and contributions primarily due to the phasing out of renovation and improvement projects throughout the District.

**CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2015**

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following table presents the cost of District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the state and District's taxpayers by each of these functions.

	Year Ended June 30, 2015		Year Ended June 30, 2015	
	Total Expenses	Net (Expense)/ Revenue	Total Expenses	Net (Expense)/ Revenue

Support services – administration	2,008,461	(1,896,940)	2,071,007	(1,977,886)
Operation and maintenance of plant services	2,185,171	(1,916,105)	2,133,097	(1,932,717)
Student transportation services	1,045,380	(1,042,793)	1,033,323	(1,027,722)
Operation of non-instructional services	1,153,840	(69,000)	1,083,324	114,432
Interest on long-term debt	77,166	(19,321)	83,994	(52,456)
Total	<u>\$ 17,197,694</u>	<u>\$ (13,996,434)</u>	<u>\$ 17,507,434</u>	<u>\$ (14,251,648)</u>

- The cost of all governmental activities this year was \$17.2 million.
- Federal and state governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$3.2 million.
- Net cost of governmental activities of \$14.0 million was financed by general revenues, which are made up of primarily property taxes of \$6.4 million and state aid of \$6.2 million.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

**CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2015**

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$2.3 million, a decrease of \$41,456 due primarily to increased expenditures as a result of judgments rendered against the District by property taxpayers.

The General Fund comprises 58 percent of total fund balance. Ninety-seven percent of the General Fund's fund balance is unassigned.

The General Fund is the principal operating fund of the District. The increase in fund balance of \$371,740 to \$1.4 million as of fiscal year end was primarily due to excess revenues over expenditures as a result of conservative spending. General Fund revenues decreased \$130,410, while General Fund expenditures increased \$520,620.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised the General Fund annual expenditure budget to account for changes in student enrollment. The difference between the original budget and the final amended budget was a \$509,883 increase, or four percent, as a result of revisions to the District's carry forward balance and the finalization of judgments against the District.

Significant variances for the final amended budget and actual revenues resulted from the District no longer being required by the State of Arizona to prepare a revenue budget. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information.

- The favorable variance of \$362,201 in instruction expenditures was a result of lower than anticipated costs of employee benefits.
- The favorable variance of \$271,350 in support services – administration expenditures was a result of various unfilled positions throughout the year, contributing to lower than anticipated costs of salaries.

**CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2015**

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. At year end, the District had invested \$35.1 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$533,687 from the prior fiscal year. Total depreciation expense for the current fiscal year was \$1.0 million.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2015 and June 30, 2014.

	<u>As of June 30, 2015</u>	<u>As of June 30, 2014</u>
Capital assets – non-depreciable	\$ 817,166	\$ 817,166
Capital assets – depreciable, net	<u>19,086,801</u>	<u>19,526,752</u>
Total	<u>\$ 19,903,967</u>	<u>\$ 20,343,918</u>

Additional information on the District's capital assets can be found in Note 6.

Debt Administration. At year-end, the District had \$1.7 million in long-term debt outstanding, \$284,775 due within one year. Long-term debt increased by \$7,659. The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 30 percent of the total secondary assessed valuation) and the statutory debt limit on Class B bonds (the greater of 20 percent of the secondary assessed valuation or \$1,500 per student). At fiscal year end, the District had no general obligation bonds outstanding.

Additional information on the District's long-term debt can be found in Notes 10 and 11.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2015-16 budget. Among them:

- Fiscal year 2014-15 budget balance carry forward (estimated \$100,000).
- District student population (estimated 2,217).
- Employee salaries.
- Population demographics of the District.

**CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2015**

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund decreased two percent to \$12.1 million in fiscal year 2015-16. Prior year extinguishment of obligations related to judgments rendered against the District is the primary reason for the decrease. State aid and property taxes are expected to be the primary funding sources. No significant new programs were added to the 2015-16 budget.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Business and Finance Department, Chino Valley Unified School District No. 51, 650 East Center Street, Chino Valley, Arizona 86323.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2015

Net changes in fund balances - total governmental funds **\$ (41,456)**

Amounts reported for *governmental activities* in the Statement of Activities are different because:

Governmental funds report the portion of capital outlay for capitalized assets as expenditures. However, in the Statement of Activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense.

Expenditures for capitalized assets	\$ 588,322	
Less current year depreciation	<u>(1,007,813)</u>	(419,491)

Issuance of capital leases debt provides current financial resources to governmental funds, but the issuance increases long term liabilities in the Statement of Net Position.		(300,000)
--	--	-----------

Some revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes	93,176	
Intergovernmental	<u>(102,811)</u>	(9,635)

Repayments of long-term debt principal are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

Capital lease principal retirement	292,341	
Repayment of judgments	<u>350,298</u>	642,639

Governmental funds report pension contributions as expenditures. However, they are reported as deferred outflows of resources in the Statement of Net Position. The change in the net pension liability, adjusted for deferred pension items, is reported as pension expense in the Statement of Activities.

Current year pension contributions	795,326	
Pension expense	<u>(628,542)</u>	166,784

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Judgments	(89,521)	
Loss on disposal of assets	(20,460)	
Compensated absences	<u>140,378</u>	<u>30,397</u>

Changes in net position in governmental activities **\$ 69,238**

The notes to the basic financial statements are an integral part of this statement.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Chino Valley Unified School District No. 51 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

During the year ended June 30, 2015, the District implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. This Statement requires governments providing defined benefit pensions to recognize the long-term obligation for pension benefits as a liability, and to more comprehensively and comparably measure the annual costs of pension benefits. This Statement also enhances accountability and transparency through revised note disclosures and new required supplementary information.

The more significant of the District's accounting policies are described below.

A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, and athletic functions.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted federal, state, and county aid, and other items not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Financial Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due.

Property taxes, federal, state and county aid, tuition and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as unavailable revenues on the governmental fund financial statements.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The District reports the following major governmental funds:

General Fund – The General Fund is the District’s primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District’s Maintenance and Operation Fund as well as certain activities budgeted in separate funds in accordance with A.R.S. These funds are maintained as separate funds for budgetary purposes but do not meet the criteria for separate reporting in the financial statements.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Additionally, the District reports the following fund types:

Fiduciary Funds – The Fiduciary Funds are Agency Funds which account for resources held by the District on behalf of others. This fund type includes the Student Activities Fund which accounts for monies raised by students to finance student clubs and organizations held by the District as an agent. In addition, funds that account for employee withholdings before the monies are remitted to the appropriate entities are included in the Agency Funds.

The Agency Funds are custodial in nature and do not have a measurement focus and are reported using the accrual basis of accounting. The Agency Funds are reported by fund type.

D. Cash and Investments

A.R.S. require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. As required by statute, interest earnings of the Bond Building Fund are recorded initially in that fund, but then transferred to the Debt Service Fund. All investments are stated at fair value.

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Statute requires collateral for deposits of Bond Building and Debt Service Funds monies in interest bearing savings accounts and certificates of deposit at 101 percent of all deposits not covered by federal depository insurance.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Arizona statute requires a pooled collateral program for public deposits and a Statewide Collateral Pool Administrator (Administrator) in the State Treasurer's Office. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured with collateral of 102 percent of the public deposits, less any applicable deposit insurance. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

E. Investment Income

Investment income is composed of interest, dividends and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the governmental fund financial statements.

F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

G. Property Tax Calendar

The County Treasurer is responsible for collecting property taxes for all governmental entities within the county. The county levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements and as expenditures when purchased in the fund financial statements.

I. Capital Assets

Capital assets, which include land and improvements; buildings and improvements; vehicles, furniture, and equipment; and construction in progress, are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost, or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at the estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	15 – 30 years
Buildings and improvements	10 – 60 years
Vehicles, furniture and equipment	5 – 20 years

J. Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

K. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

M. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts, as well as the difference between the reacquisition price and the net carrying amount of the old debt, are deferred and amortized over the life of the bonds using the straight-line method over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

N. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds.

O. Net Position Flow Assumption

In the government-wide fund financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

P. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 – FUND BALANCE CLASSIFICATIONS

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

Nonspendable. The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

Restricted. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 2 – FUND BALANCE CLASSIFICATIONS

Committed. The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The District does not have a formal policy or procedures for the utilization of committed fund balance. Accordingly, no committed fund balance amounts are reported.

Assigned. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by the formal Governing Board action. The District does not have a formal policy or procedures for the utilization of assigned fund balance. Accordingly, no assigned fund balance amounts are reported.

Unassigned. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 2 – FUND BALANCE CLASSIFICATIONS

The table below provides detail of the major components of the District’s fund balance classifications at year end. Voter approved initiatives include monies restricted in the Classroom Site and Instructional Improvement Funds.

	General Fund	Non-Major Governmental Funds
Fund Balances:		
Nonspendable:		
Prepaid items	\$ 23,002	\$
Restricted:		
Debt service		64
Capital projects	18,264	209,816
Voter approved initiatives		430,585
Federal and state projects		47,025
Food service		27,726
Civic center		59,784
Community school		36,475
Extracurricular activities		186,839
Intergovernmental agreements		30,702
Other purposes		19,088
Unassigned	1,317,376	(73,190)
Total fund balances	\$ 1,358,642	\$ 974,914

NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Individual Deficit Fund Balances – At year end, the Adjacent Ways Fund, a non-major governmental fund, reported a deficit of \$73,190 in fund balance.

The deficit arose because of operations during the year. Additional revenues received in fiscal year 2015-16 are expected to eliminate the deficit.

Excess Expenditures Over Budget – At year end, the District had expenditures in funds that exceeded the budgets, however this does not constitute a violation of any legal provisions.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 4 – CASH AND INVESTMENTS

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District’s deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District’s deposits was \$348,388 and the bank balance was \$351,426. At year end, the District also had \$600 of cash on hand. At year end, \$125,861 was covered by collateral held by the pledging financial institution’s trust department or agent but not in the District’s name.

The County Treasurer’s pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant’s position in the County Treasurer investment pool approximates the value of the participant’s shares in the pool and the participants’ shares are not identified with specific investments.

At year end, the District’s investments consisted of the following:

	<u>Average Maturities</u>	<u>Fair Value</u>
County Treasurer’s investment pool	1.23 years	<u>\$ 564,411</u>
Total		<u><u>\$ 564,411</u></u>

Interest Rate Risk. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. The District has no investment policy that would further limit its investment choices. As of year end, the District’s investment in the County Treasurer’s investment pool did not receive a credit quality rating from a national rating agency.

Custodial Credit Risk – Investments. The District’s investment in the County Treasurer’s investment pool represents a proportionate interest in the pool’s portfolio; however, the District’s portion is not identified with specific investments and is not subject to custodial credit risk.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 5 – RECEIVABLES

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year end for the District’s individual major funds and non-major governmental funds in the aggregate, were as follows:

	General Fund	Non-Major Governmental Funds
Due from other governmental entities:		
Due from federal government	\$	\$ 455,749
Due from state government	1,744,641	178,167
Net due from governmental entities	\$ 1,744,641	\$ 633,916

NOTE 6 – CAPITAL ASSETS

A summary of capital asset activity for the current fiscal year follows:

	Beginning Balance	Increase	Decrease	Ending Balance
Governmental Activities				
Capital assets, not being depreciated:				
Land	\$ 817,166	\$	\$	\$ 817,166
Total capital assets, not being depreciated	817,166			817,166
Capital assets, being depreciated:				
Land improvements	3,257,423	38,943		3,296,366
Buildings and improvements	26,325,269	377,440		26,702,709
Vehicles, furniture and equipment	4,165,913	171,939	54,635	4,283,217
Total capital assets being depreciated	33,748,605	588,322	54,635	34,282,292
Less accumulated depreciation for:				
Land improvements	(2,086,082)	(137,205)		(2,223,287)
Buildings and improvements	(9,844,904)	(618,985)		(10,463,889)
Vehicles, furniture and equipment	(2,290,867)	(251,623)	(34,175)	(2,508,315)
Total accumulated depreciation	(14,221,853)	(1,007,813)	(34,175)	(15,195,491)
Total capital assets, being depreciated, net	19,526,752	(419,491)	20,460	19,086,801
Governmental activities capital assets, net	\$ 20,343,918	\$ (419,491)	\$ 20,460	\$ 19,903,967

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 6 – CAPITAL ASSETS

Depreciation expense was charged to governmental functions as follows:

Instruction	\$	577,927
Support services – students and staff		27,065
Support services – administration		62,533
Operation and maintenance of plant services		205,885
Student transportation services		125,505
Operation of non-instructional services		8,898
Total depreciation expense – governmental activities		<u>\$ 1,007,813</u>

NOTE 7 – DUE TO COUNTY TREASURER

At year end, the General Fund had a negative cash balance in the Treasurer’s pooled cash accounts, resulting in a payable due to the County Treasurer in the amount of \$437,331. Future General Fund revenues will be used to eliminate the payable.

NOTE 8 – REVOLVING LINE OF CREDIT

The District has a revolving line of credit to provide cash flow during the year to mitigate the impact of timing differences of expenditures and the receipt of state aid and property tax revenues. General Fund revenues were used to repay the line of credit. Short-term debt activity for the current fiscal year was as follows:

	<u>Beginning Balance</u>	<u>Issued</u>	<u>Redeemed</u>	<u>Ending Balance</u>
Revolving line of credit	<u>\$</u>	<u>\$ 3,424,096</u>	<u>\$ (3,424,096)</u>	<u>\$</u>

NOTE 9 – CLAIMS AND JUDGMENTS PAYABLE

Claims and judgments that would normally be liquidated with expendable available resources are recorded during the year as expenditures in the governmental fund financial statements; however, claims and judgments are recorded in the government-wide statements when the related liability is incurred. During the 2014-15 fiscal year, one District taxpayer was awarded a judgment totaling \$89,521 for excessive property tax valuations in prior years. Under the provisions of A.R.S. §42-16213, the District requested a correction to state aid related to the judgments.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 10 – OBLIGATIONS UNDER CAPITAL LEASES

The District has acquired energy retrofits, buses, and a transportation building under the provisions of long-term lease agreements classified as capital leases. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. Revenues from the Intergovernmental Agreements Fund, Unrestricted Capital Outlay Fund, and Energy and Water Savings Fund, all non-major governmental funds, are used to pay the capital lease obligations. Revenues from the General Fund are transferred to the Energy and Water Savings Fund to pay the capital lease obligations when due. The District receives a federal interest subsidy to fund the interest payments for the District-wide energy project. Amortization of assets recorded under capital leases is included with depreciation expense.

The assets capitalized and acquired through capital leases are as follows:

	Governmental Activities
Asset:	
Building improvements	\$ 1,811,796
Vehicles, furniture and equipment	668,440
Less: Accumulated depreciation	(394,734)
Total	\$ 2,085,502

The future minimum lease obligations and the net present value of these minimum lease payments at year end were as follows:

	Governmental Activities
Year Ending June 30:	
2016	\$ 369,222
2017	338,042
2018	302,200
2019	302,319
2020	226,207
2021-25	516,294
Total minimum lease payments	2,054,284
Less: amount representing interest	347,625
Present value of minimum lease payments	1,706,659
Due within one year	\$ 284,775

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 11 – CHANGES IN LONG-TERM LIABILITIES

Long-term liability activity for the current fiscal year was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
Obligations under capital leases	\$ 1,699,000	\$ 300,000	\$ 292,341	\$ 1,706,659	\$ 284,775
Compensated absences payable	410,656	150,244	290,622	270,278	100,000
Net pension liability	13,848,466		1,364,011	12,484,455	
Claims and judgments payable	350,298	89,521	350,298	89,521	89,521
Governmental activity long-term liabilities	<u>\$ 16,308,420</u>	<u>\$ 539,765</u>	<u>\$ 2,297,272</u>	<u>\$ 14,550,913</u>	<u>\$ 474,296</u>

NOTE 12 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

At year end, interfund balances were as follows:

Due to/from other funds:

	General Fund	Non-Major Governmental Funds	Total Due to Other Funds
Non-Major Governmental Funds	\$ 269,413	\$ 49,761	\$ 319,174
Total Due from Other Funds	<u>\$ 269,413</u>	<u>\$ 49,761</u>	<u>\$ 319,174</u>

At year end, several funds had negative cash balances in the Treasurer's pooled cash accounts. Negative cash on deposit with the County Treasurer was reduced by interfund borrowing with other funds. All interfund balances are expected to be paid within one year.

Interfund transfers:

	General Fund	Transfers in Non-Major Governmental Funds	Total
Transfers out			
General Fund	\$	\$ 134,173	\$ 134,173
Non-Major Governmental Funds	278,057		278,057
Total	<u>\$ 278,057</u>	<u>\$ 134,173</u>	<u>\$ 412,230</u>

Transfers between funds were used to (1) move federal grant funds restricted for indirect costs, (2) transfer energy savings from the General Fund to the Energy and Water Savings Fund as allowed by statute, and 3) close out Debt Service Fund balance to the General Fund.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 13 – CONTINGENT LIABILITIES

Compliance – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

NOTE 14 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District's employees have health and accident insurance coverage with the Arizona School Board Association Insurance Trust (ASBAIT). ASBAIT is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays a monthly premium to ASBAIT for employees' health and accident insurance coverage. The agreement provides that ASBAIT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

The District continues to carry commercial insurance for all other risks of loss, including vision and life insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 15 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Plan Description. District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the ASRS website at www.azasrs.gov.

Benefits Provided. The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Retirement Initial Membership Date:	
	Before July 1, 2011	On or After July 1, 2011
Years of service and age required to receive benefit	Sum of years and age equals 80 10 years age 62 5 years age 50* Any years age 65	30 years age 55 25 years age 60 10 years age 62 5 years age 50* Any years age 65

*With actuarially reduced benefits

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 15 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Contributions. In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 11.60 percent (11.48 percent for retirement and 0.12 percent for long-term disability) of the members’ annual covered payroll, and the District was required by statute to contribute at the actuarially determined rate of 11.60 percent (10.89 percent for retirement, 0.59 percent for health insurance premium benefit, and 0.12 percent for long-term disability) of the active members’ annual covered payroll. The District’s contributions to the pension plan for the year ended June 30, 2015 were \$795,326.

In addition, the District was required by statute to contribute at the actuarially determined rate of 9.57 percent (9.51 for retirement and 0.06 percent for long-term disability) of annual covered payroll of retired members who worked in positions that would typically be filled by an employee who contributes to ASRS.

The District’s contributions for the current and two preceding years for OPEB, all of which were equal to the required contributions, were as follows:

		Health Benefit Supplement Fund		Long-Term Disability Fund
Year ending June 30:				
2015	\$	43,089	\$	8,764
2014		45,313		18,125
2013		50,860		18,779

Pension Liability. At June 30, 2015, the District reported a liability of \$12.5 million for its proportionate share of the net pension liability of the ASRS. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2013, to the measurement date of June 30, 2014. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2014, the District’s proportion was 0.08 percent, which was a decrease of 0.01 percent from its proportion measured as of June 30, 2013.

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 15 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Pension Expense and Deferred Outflows/Inflows of Resources. For the year ended June 30, 2015, the District recognized pension expense of \$628,542 and reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 634,497	
Net difference between projected and actual earnings on pension plan investments		2,183,146
Changes in proportion and differences between contributions and proportionate share of contributions		443,904
Contributions subsequent to the measurement date	795,326	
Total	\$ 1,429,823	\$ 2,627,050

The deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30:			
2016		\$	(462,920)
2017			(462,920)
2018			(520,926)
2019			(545,787)

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 15 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Actuarial Assumptions. The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2013
Actuarial roll forward date	June 30, 2014
Actuarial cost method	Entry age normal
Investment rate of return	8.0%
Projected salary increases	3.0-6.75%
Inflation	3.0%
Permanent base increases	Included
Mortality rates	1994 GAM Scale BB

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2012. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2013, actuarial valuation. The study did not include an analysis of the assumed investment rate of return.

The long-term expected rate of return on ASRS pension plan investments was determined to be 8.79 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Equity	63%	7.03%
Fixed income	25%	3.20
Real estate	8%	4.75
Commodities	4%	4.50
Total	<u>100%</u>	

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 15 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Discount Rate. The discount rate used to measure the ASRS total pension liability was 8.0 percent, which is less than the long-term expected rate of return of 8.79 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board’s funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 8.0 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease (7.0%)	Current Discount Rate (8.0%)	1% Increase (9.0%)
Proportionate share of the net pension liability	\$15,779,711	\$ 12,484,455	\$10,696,613

Pension Plan Fiduciary Net Position. Detailed information about the pension plan’s fiduciary net position is available in the separately issued ASRS financial report. The report is available on the ASRS website at www.azasrs.gov.

Beginning Net Position Restatement. The implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, represents a change in accounting principle. Net position as of July 1, 2014, has been restated as follows for this change in accounting principle:

	Statement of Activities
Net position, June 30, 2014, as previously reported	\$ 20,641,864
Net pension liability	(13,848,466)
Net position, July 1, 2014, as restated	\$ 6,793,398

CHINO VALLEY UNIFIED SCHOOL DISTRICT NO. 51
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2015

NOTE 1 – BUDGETARY BASIS OF ACCOUNTING

The District budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following items.

- Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.
- Prepaid items are budgeted in the year prepaid.

The following schedule reconciles expenditures and fund balances at the end of year.

	Total Expenditures	Fund Balances End of Year
Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds	\$ 12,554,161	\$ 1,358,642
Activity budgeted as special revenue funds	(437,327)	(276,106)
Activity budgeted as capital projects funds	(12,673)	(18,264)
Current-year prepaid items	564,300	
Prior-year prepaid items	(565,000)	
Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General Fund	\$ 12,103,461	\$ 1,064,272

NOTE 2 – PENSION PLAN SCHEDULES

Actuarial Assumptions for Valuations Performed. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

Factors that Affect Trends. The actuarial assumptions used in the June 30, 2013, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2012. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2013, actuarial valuation. The study did not include an analysis of the assumed investment rate of return.

SPECIAL REVENUE FUNDS

Classroom Site - to account for the financial activity for the portion of state sales tax collections and permanent state school fund earnings as approved by the voters in 2000.

Instructional Improvement - to account for the activity of monies received from gaming revenue.

Structured English Immersion - to account for monies received to provide for the incremental cost of instruction to English language learners.

Compensatory Instruction - to account for monies received for programs in addition to normal classroom instruction to improve the English proficiency of current English language learners.

Student Success - to account for student success monies.

Title I Grants - to account for financial assistance received for the purpose of improving the teaching and learning of children failing, or most at-risk of failing, to meet challenging state academic standards.

Professional Development and Technology Grants - to account for financial assistance received to increase student academic achievement through improving teacher quality.

Limited English and Immigrant Students - to account for financial assistance received for educational services and costs for limited English and immigrant children.

Special Education Grants - to account for supplemental financial assistance received to provide a free, appropriate public education to disabled children.

Vocational Education - to account for financial assistance received for preparation of individuals for employment or advancement in a career not requiring a baccalaureate or advanced degree.

Medicaid Reimbursement - to account for reimbursements related to specific health services provided to eligible students.

National Forest Fees - to account for monies allocated for the purposes of benefiting public schools and public roads in counties where national forests are situated.

Equipment Cost Sharing - to account for financial assistance to eligible public schools to address soil, water, and related natural resource concerns on their lands.

E-Rate - to account for financial assistance received for broadband internet and telecommunication costs.

Other Federal Projects - to account for financial assistance received for other supplemental federal projects.

State Vocational Education - to account for financial assistance received for the preparation of individuals for employment.

Other State Projects - to account for financial assistance received for other state projects.

School Plant - to account for proceeds from the sale or lease of school property.

Food Service - to account for the financial activity of school activities that have as their purpose the preparation and serving of regular and incidental meals and snacks in connection with school functions.

Civic Center - to account for monies received from the rental of school facilities for civic activities.

Community School - to account for activity related to academic and skill development for all citizens.

Auxiliary Operations - to account for activity arising from bookstore, athletic and miscellaneous District related operations.

Extracurricular Activities Fees Tax Credit - to account for activity related to monies collected in support of extracurricular activities to be taken as a tax credit by the tax payer in accordance with A.R.S. §43-1089.01.

Gifts and Donations - to account for activity related to gifts, donations, bequests and private grants made to the District.

Career, Technical and Vocational Education - to account for activity related to the production and subsequent sale of items produced in an instructional program by career, technical and vocational education pupils.

Fingerprint - to account for activity of fingerprinting employees as mandated by the State.

Textbooks - to account for monies received from students to replace or repair lost or damaged textbooks.

Litigation Recovery - to account for monies received for and derived from litigation.

Indirect Costs - to account for monies received from federal projects for administrative costs.

Insurance Refund - to account for insurance premium payments that are refunded to the District.

Grants and Gifts to Teachers - to account for grants and gifts under \$1,500 received from private sources that are designated for use by a teacher for instructional purposes.

Advertisement - to account for monies received from the sale of advertising.

Joint Technical Education - to account for monies received from Joint Technical Education Districts for vocational education programs.

Intergovernmental Agreements - to account for the financial activities relating to agreements with other governments not required to be accounted for elsewhere.

STATISTICAL SECTION

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

Financial Trends

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenue.

Debt Capacity

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

Demographic and Economic Information

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

Operating Information

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

Due to cost considerations for the accumulation of data, the District has elected to present less than ten years of data, or data from less than nine years prior, for certain statistical schedules. This information will be accumulated and reported each year until the complete ten years of data is presented.

As a Percentage of Net Secondary Assessed Valuation		N/A
Net Direct and Overlapping General Bonded Debt		
Per Capita	\$ 954	
As a Percentage of Net Secondary Assessed Valuation		16.17 %
As a Percentage of Estimated Actual Value (Full Cash Value)		2.05 %

Source: The source of this information is the District's records and the State and County Abstract of the Assessment Roll, Arizona Department of Revenue and the applicable governmental unit.

- Notes:**
- 1) Estimated percentage of debt outstanding applicable to the District is calculated based on the District's secondary assessed valuation as a percentage of the secondary assessed valuation of the overlapping jurisdiction.
 - 2) Outstanding debt as of June 30, 2014 is presented for the overlapping governments as this is the most recent available information.
 - 3) N/A indicates that the information is not applicable, as the District has no direct general obligation bonded debt as of June 30, 2015.
